Professional Summary

Aspiring AI/ML Engineer with a strong foundation in Java, object-oriented programming, and software development principles, along with knowledge of machine learning and data analysis. Interested in building scalable applications that integrate machine learning models and AI-based features. Familiar with model development, data preprocessing, and basic deep learning concepts.

Experience

Machine Learning Fundamentals Intern

September,
2025

L&T EduTech

- Learned and implemented fundamental Machine Learning algorithms including Linear Regression, Logistic Regression, Decision Tree, Random Forest, K-Nearest Neighbors, and Naive Bayes.
- Understood and applied supervised and unsupervised learning techniques.
- Evaluated machine learning models using Accuracy, Precision, Recall, F1-score, Confusion Matrix, and R² Score.
- Gained understanding of the Machine Learning pipeline from data preprocessing to model evaluation.

Digital Marketing Intern

May 2025-
October 2025

GRP Career Pvt-Ltd

- Analyzed website and campaign performance using tools like Google Analytics.
- Learnt about SEO, social media marketing, content creation, keyword research, & campaign performance analysis.
- Created digital content using Canva.
- Practised optimizing website content for search engine.

Projects

AI Poetry & Lyric Generator

- AI Powered Web Application, generating Poetries via User Prompts.
- Used tools like HTML, CSS, JavaScript along with an AI Integration of Gemini 2.5 .
- Worked by analyzing Themes, moods & Prompts given by user.
- Enabled usage of Responsive UI using HTML, CSS, JS & deployed it on Render.

AI-Driven Website for Internship Management

- Deployed a functional website using React, Tailwind CSS & Node.js as base languages.
- Added a recommendation system, utilizing Gemini 2.5 for an improved user experience by analyzing Current Trends, Profile Data and User Interests.
- Provided Regional Language support via translations.
- Generate Automated results , with filtering & sorting options for easier searches.

Technical Skills

- Languages:** Java, Python, C
- Backend:** Node.js
- Frontend:** HTML, CSS, JavaScript
- Database:** SQL, MySQL
- Tools & Platforms:** VS Code, GitHub, GitLab

Education

Shri Ramswaroop Memorial College of Engineering & Management

2023-Current

Bachelor of Technology in CSE(Artificial Intelligence & Machine Learning)

Certifications & Achievements

- Machine Learning Fundamentals (L&T EduTech) .
- Digital Marketing (GRP Career) .
- Class Representative for 1 year.
